## **This month we have Dave Whittle.**

At this meeting, Thursday, May 3rd, SouthSide Computer Club is hosting a presentation by David B. Whittle, author of "Cyberspace: The Human Dimension" and named by Working Woman Magazine as "one of America's most original technological thinkers." Dave's been a leader in the PC revolution since 1979, and an opinion-leader in the PC industry since his days as an OS/2 Evangelist at IBM in the early '90s. Most recently, he's been writing for *Smart Computing*. Now he's bringing to you his favorite discoveries from recent trade shows in order to show new products that open up new horizons of possibility or solve problems you might be facing.

Dave will be speaking on the topic of:  
"Whittle's Picks for the Digital Home  
– Only the Best, Not All the Rest"

## Our Mission Statement

The SSCC is an independent non-profit organization that is open to anyone interested in computing. The SSCC is not affiliated with any business. Our purpose is to promote various aspects of computing and computer literacy to all age groups. We are a member of APCUG (The association of PC Users Groups). We have one general meeting per month with a guest speaker representing a manufacturer of hardware/software or related industries including retail. In addition we provide separate Special Interest Groups (SIG'S) on various subjects determined by our membership.

---

### Members:

When your membership becomes 30 days past due all discounts you receive through the club stops.

---

All Submissions for this publication are due 7 days before the regular meeting.
